

MADRID CAMPUS

STUDY ABROAD
AT **SCHILLER**
INTERNATIONAL
UNIVERSITY

MADRID CAMPUS

Our campus has a privileged location, in the heart of the cultural, social and business area of Madrid. Our building has the most up-to-date facilities and technology. With more than 3,000 square meters, it houses advanced learning spaces and provides necessary conditions to achieve the highest levels of quality and excellence, focused on experiential learning and digital educational technology.

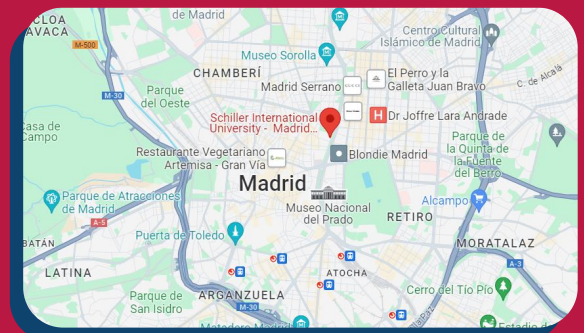

WHY STUDY IN MADRID?

- The perfect combination of international business, culture, leisure, and diversity.
- Capital of the Spanish language, one of the languages with the greatest economic potential in the world.
- Unbeatable access to the European Single Market, as well as to Latin American and North African economies.

THIS IS
**THE REAL GLOBAL
LEARNING EXPERIENCE.**

AND THIS IS US:

AMERICAN EDUCATION SYSTEM

REAL INTERNATIONAL EXPERIENCE

International Learning

Both at home and abroad during the entire course of studies.

Real Language Learning

English + a second foreign language: GER, SPA, or FR.

PERSONALIZED LEARNING

One Course Per Month

Study in an immersive format that facilitates learning and reduces exam overlap.

Reduced Classroom

Maximum class size of 30 students.

Academic Advisor From Day One

An Expert that supports students throughout their studies.

THE STUDY ABROAD PROGRAM

The Study Abroad Program at Schiller International University gives international students from partner institutions the chance to experience a study period abroad (semester or full academic year) following the offered pathways for a specific degree and knowledge area. The stay will be subject to the payment of tuition fees.

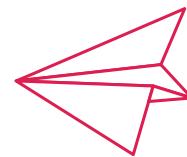

Students must complete a minimum of 4 courses (during first semester) and a maximum of 10 courses for a full academic year.

English proficiency requirements minimum B2.

Duolingo English Test (DET):
Minimum score of 115

TUITION FEES

Incoming International students from universities without a Collaboration Agreement:

30% Scholarship

Depending on the pathway or knowledge area (enrollment and application fee + price per credit x number of credits to be completed)

Incoming International students from universities with a Collaboration Agreement:

50% Scholarship

Depending on the pathway or knowledge area (enrollment and application fee + price per credit x number of credits to be completed)

STUDENTS CAN CHOOSE BETWEEN THREE DIFFERENT KNOWLEDGE AREAS:

At Schiller International University, we offer our incoming students the best way to acquire global skills, improve their cross-cultural competences and become a global citizen by participating in our Semester Abroad Program at our **Madrid Campus**. It will give International students an insight into the American Academic System and complement their studies in their home country.

Study Abroad at an American University founded in Europe. A truly enriching international experience. By participating in this program students will improve English language skills, study with Schiller students in classrooms, earn credits for the home institution.

Bachelor of Science in International Business

As more and more companies throughout the world have become multinational, they increasingly need executives who can deal effectively with organizational problems in an international framework. The International Business program is designed to meet these needs. Students participating in this program will benefit from interactions with various cultures including the social, economic and political conditions associated with business practices in different countries.

Bachelor of Arts in International Relations and Diplomacy

Political and economic problems often transcend national boundaries and encompass scientific, technological, cultural and humanitarian concerns. The BS IRD program prepares student to pursue careers in government, international organizations, law, business, journalism, or for future study in political science and related areas.

[Click here for short course descriptions](#)

Bachelor of Science in Computer Science

Students will learn the general synthesis of mathematics and statistics as well as computational and coding skills within a global context. They will acquire intercultural speaking and effective multicultural communication skills, critical thinking and problem-solving skills, and leadership and global citizenship to lead change towards an ethical and sustainable world.
